Recruiting and Retention Role Comparison

Different roles, some similarities, unique cultural differences

Both vital to end strength

Market propensities are vastly different

Beware of the tendency to overplay the importance of one role over another (If it is so easy, volunteer for the other role)

Recruiters sell an Army experience and Career Counselors provide the “bridge” between an Army experience and an Army Career through pre-emptive counseling and effective follow-up

Both need tools (incentives) and command support for success.

Incentives are both monetary and non-monetary

• All-Volunteer Force at War
• Negative Media Coverage
• Greater Role by Influencers
• Improving Economy
• College Aspirations (95%)*
• Reserve Recruiting is Difficult

• In October 2005, 68.6 percent of high school graduates from the class of 2005 were enrolled in colleges or universities, according to data released today by the U.S. Department of Labor's Bureau of Labor Statistics. The college enrollment rate for recent high school graduates was a historical high for the series dating back to 1959. U.S. Bureau of Labor Statistics - March 24, 2006

Major Issues

• Consolidation of AR 135-7 (RC Incentives) into AR 601-210 (Recruiting), AR 601-280 (Retention) and AR 621-202 (Education Incentives)
  - Current regulations are outdated and have not kept pace with events
  - Continuum of Service and transfer among components into law and policy

• Army Advantage Fund (Housing, Business fund)

• Contract Related Problems: (Incentives Related)
  - Refer to our office if bonus or education incentive problem with DFAS that cannot be resolved by other commands
  - Use ABCMR as a last resort
  - FY06 OCS Enlistment Bonus Problem (status report)
  - 09L Bonus (Most should be resolved)
  - AC to RC Bonus (Hurricane Katrina Bonus)- Expired 31 January 06

• Bonus creep- Many amounts altered/reduced at start of FY07 to stay within budget
Pending legislation

**FY08**
- RC Student Loan Repayment (Equity with RA Statute)
- Enhanced Referral Bonus: Add DoD Civilians and Other Services

**FY09**
- **Initiator**
  - VEAP Conversion (one last chance)  
    - AFAP
  - Consolidate PSEB and AC to RC Bonus into one authority  
    - G-1
  - Tax Exempt Status for Student Loan Repayment  
    - G-1
  - Tuition Assistance for adult Dependents  
    - FORSCOM/G-1
  - MGIB delimiting date (Change from 10 years to 20)  
    - AFAP
  - Days of Service (DOS) eligibility for RC NPS bonus  
    - G-1
  - Combine Army Coll. Fund and Loan Repayment  
    - G-1
  - Chapter 1607 MGIB- make cumulative for credit  
    - RC-HRC
Impacts of 9-11 and the Future

Pre 9-11
- Transformation
  - Army Well-Being
  - Continuum of Service
  - Units of Action
  - IMA Role
  - Streamlined Incentives

Post 9-11
- RC Role Change
- Stop Loss
- Deployment Cycle Support
- R&R Leave
- DS3
- Enhance/Raise Incentives
- Raised age, more CAT IV, etc.

Pre 9-11 Programs still alive, but focus has changed
- Transformation: Units of Action (size, end strength)
- Well Being: DCS, Family Support, Disabled Soldiers, R&R Leave
- Continuum of Service: Changed by RC deployments, Blue to Green
- Approach to Recruiting and Retention

Post 9-11 and GWOT (Future)
- “Buffet of Incentives”
- Automated Career Planning
- Flexibility of movement between components
- Consolidation of AC and RC programs and standards
The Army Incentives Fund

• Proposal by Office of SECDEF:
  - Change law from “bonuses” to “incentives” (Expands the possibilities)
  - Permit Service Secretary to define programs across the spectrum with statutory constraints (Provides flexibility to manage to unique service needs)

• Army Plan:
  - Offer a “Buffet” or choice of combined options at enlistment and reenlistment.
  - The applicant/Soldier will “Pick and Choose”
  - Benefit combinations dictated by law, but will accrue throughout a career through a “life cycle” incentives package for all components (AC and RC)
  - Possible combinations: (Current or proposed Maximum)
    • Enlistment or reenlistment bonuses ($40K EB/$90K SRB)
    • Tax free down payment on a home (up to $45K)
    • Small business start up stipend (up to $45K)
    • Army College Fund
    • Student Loan Repayment
    • MGIB Flexibility and transferability
Army Advantage Fund

• As a result of Section 681 of the NDAA FY06, the Army is authorized to implement a three year demonstration on four new recruitment incentives to encourage individuals to accept commissions as officers or enlist in the Army. The Secretary of the Army’s intent is to implement AAF as one of the incentives.

• Purpose. The Army is testing this flexible incentive to gain a competitive advantage for attracting eligible individuals to enlist who would have otherwise rejected the Army as a career choice. The incentive is designed to recruit prospects into critical military occupational skills (MOS).

• Pilot Program Description. The AAF incentive pilot program is to offer a lump sum that is tied to a four year term of service in a critical MOS. The AAF is composed of two options: Army Home Ownership or Army Business Funding. At a minimum, individuals must complete either their term of service or serve at least thirty-six months and be separated under honorable conditions to be qualified for the incentive payment.
Army Advantage Fund

• **Program Scope and Qualifications.** The AAF incentive is open to 500 prospects who accept initial enlistments into the Active Army component. During the pilot program, the Army will fund the 500 takers for a four year enlistment at $30,000 per offer only.

• **The incentive amount** will be $30,000 for a four year enlistment while under pilot status. As a permanent program, the Army will tier the offer based enlistment length. While under the authority of Sec 681, the offering may be combined with quick ship bonus.

Effective Date: TBA during FY07
The Vision...

Army Incentive Model (AIM)

Army Incentive Fund

Current Focus

Army Home Ownership

Mortgage Loan Repayment

MGIB

Army Business Fund

College Loan Repayment

Army College Fund

Bonus (if Soldier elected deferred payment)

Additional incentives that the Army develops
Army Incentive Model (AIM)

**Process Overview**

**Contribution Phase**
1. Enlists / Reenlists for $-denominated incentive level
2. Contributes requisite funds to the Central Business Unit
3. Creates new account or adds funds to existing account

**Vesting Phase**
4. Serves honorably, earning his / her incentive
5. Continues adding incentive package options for payout
6. Manages funds

**Payout / Growth Phase**
5. Decides to take payout or allow continued growth of incentives
6. Pays out funds or continues managing them until Soldier elects payout

Process may repeat several times for each Soldier
Incentives Model Major Points

• The All-Volunteer Force’s competitive advantage has always rested in providing Soldiers a better future during and after the Army
  - Army College Fund fulfilled that promise...it is now an ordinary offer
  - Service intangibles such as responsibility and dedication have always been complemented with tangible incentives aimed at offering veterans a better future

• The new generation has the expectation of choices
  - Offering effective incentives that can be customized along with the Army experience gives Soldiers a competitive advantage over their peers
  - The Army Incentive Model provides the Army the ability to offer these choices

• AHO and ABF are new entries that differentiate the Army incentive offering and maintain pace with leading private sector incentive initiatives
  - In the spirit of the GI Bill, AHO and ABF address a need and make America better
  - Home buying assistance is being offered by other employers (e.g., Princeton)
  - ABF encourages prospects with the wanted entrepreneurial drive and innovative thinking
  - Incentives that focus on the Soldier’s future and aspirations are good for the Army and the Soldier...these Soldiers have lower attrition rates and higher reenlistment rates
Non-Monetary Incentives

Self Actualization (Empowerment)
Self Actualizing Career Management

• Army Career Explorer (For out of service applicants-apply for enlistment on-line)
• Integrated Career Plan (ICP)- SGT Rock/i-mentor (Web based interactive site with applicants and current Soldiers)
• PaYS (Partnership for Youth Success) http://www.armypays.com/
• Point of Sale for recruiters
• Revamped Advertising
• eArmyU
• Army Branding (Army Strong)
• The Army Career Planner (For in service Soldiers- both AC and RC)
  - Web-based tool to align skills and aspirations of soldiers and DA civilians with Army needs.
  - Patterned after Navy’s Sea Warrior and Air Force Virtual Personnel Center
  - Benefits and potential
    • Today: Link disparate data (eMILPO, TOPMIS, ATRRS, etc.) into actionable information for putting right person in right job.
    • 5 years: Soldiers see job inventory and apply for whatever they are qualified, regardless of rank/MOS; soldier training based on specific job and/or assignment requirements; 360-degree evaluations.
    • 15-years: Promotions based on skills and abilities; personnel transfer freely between components based on Army needs and personnel development.
Summary

• Recruiting and Retention incentives for all components are under scrutiny
• Changing times requires the Army to confront realities
• Monetary incentives are not the only answer
• Streamlining incentives should facilitate self actualized career management from entry to separation/retirement
• Statutes must be flexible for managers to make decisions, but stringent enough to assure accountability
• Integration of the RC must become more than a sound bite-it must become reality
• The field force (counselors) must be thinking futuristically-the present is important (mission), but the future must be beyond GWOT- remember what happened after the first Gulf War (Peace Dividend?)
